HackerRank

Summary

Computer Science Engineering (AI Data Science) student with strong skills in Python, Java, HTML, CSS, JavaScript, SQL, Git, and Data Structures Algorithms. Experienced in building responsive web applications and software projects with a focus on clean, efficient code and problem-solving. Eager to contribute to real-world development teams while continuously learning modern technologies.

Skills

Programming & Querying: SQL, Python

Data Visualization Tools: MS Excel, Power BI

Analytical Abilities: Data Cleaning, Exploratory Data Analysis (EDA), Insight Generation, Descriptive Statistics

Libraries & Framework: NumPy, Pandas, Seaborn, Matplotlib, FastAPI, REST API

Tools: Git, Github, VS Code, Jupyter Notebook, Google Colab, Docker

Core Concepts: Data Structures, Object-Oriented Programming, DBMS, Operating Systems, Machine Learning Basics, Git Version Control

Projects

VacciCare — Kids Vaccination Management System

GitHub

Live Demo

April 2026

React.js — Node.js — Express — MongoDB — JWT — REST API

Developed a full-stack vaccination management system using React.js, Node.js, Express.js, and MongoDB with JWT-based authentication and role-based access control. Implemented email/SMS notifications, multilingual support, and PDF certificate generation to enhance user experience. Deployed the application on Vercel and Render for cloud-based accessibility.

Motorola Sales and Performance Dashboard

GitHub

Live Demo

September 2025

Excel — Power BI

Designed and developed an interactive Power BI dashboard using Excel, KPIs, DAX measures, charts, and slicers to analyze mobile sales performance. Created dynamic visualizations for city-wise, product-wise, and monthly sales analysis, enabling data-driven business insights and performance tracking.

California House Price Prediction using Machine Learning

GitHub

Live Demo

May 2026

Python — Scikit-Learn — Pandas — NumPy — Matplotlib — Joblib

Developed an end-to-end machine learning model using Python and Scikit-learn with data preprocessing, feature engineering, model evaluation, and visualization to improve prediction performance.

Certifications

Programming for Everybody (Getting Started with Python)

Coursera

Fundamentals of Java Programming

Coursera

Data Analytics Job Simulation

Deloitte

30-Days SQL Micro Course

Skill Course

Extracurricular Activities

- NextGen Innovators Club member (Volunteer)
- Participated in Vibeinity – An AI-powered coding event
- Completed AI Tools ChatGPT Workshop by be10X focused on AI productivity, automation, and prompt
- INNOVISION 2026 – Participant, National Level Techno-Social Symposium – JSPM's RSCOE, Pune

Education

BTech Computer Science [AI/DS]

2023–2027

Pimpri Chinchwad University College, Pune

CGPA: 7.86 / 10

Novel International School and College

2021–2023

HSC

78.33%
